🌐 Atulkoirala

I am an enthusiastic, self-motivated, reliable, responsible, and hard-working software engineer with excellent time management skills. I am a good communicator with proven interpersonal skills and am used to working in a team whilst also being capable of using my own initiative. I am skilled in dealing with problems in a resourceful manner and negotiating to achieve beneficial agreement. I am always enthusiastic to learn and undertake new challenges. Till now I haven't worked with many companies but I believe that every count starts with zero so, hoping to get a better response from your side.
